

User Story: View and Manage Companies

As a user,

I want to view a list of companies associated with plans, search for a specific company, filter the list, and have the option to create a new company, **so that** I can efficiently manage company records within the CORE application.

A. Initial User Flow

1. I should be able to view a list of all registered companies as cards when I click on the Company tab on the side bar.
2. The heading of the page shall be "Manage Company"
3. Each company card must have the below details mandatorily
 - i. Company Name
 - ii. Plan ID
 - iii. Logo of the company in a circular frame
 - iv. In the absence of a logo, the initials of the company name inside a grey circle. For e.g. (CS for Congruent Solutions)
 - v. The size and layout of the cards must be uniform for all companies and so cards must be dynamic.
4. The cards shall be arranged in a 3x4 layout and as the screen is toggled down, the new rows shall emerge.

B. User Accessibility

1. Once I land on the company page and as I view the cards listed as mentioned above, I want the below buttons to be added to enhance user accessibility and overall experience.
 - i. A **Company Search Bar** that allows me to search for a specific company based on the company name. The cards that match the corresponding name shall alone be shown on the UI removing all non-matching ones.
 - ii. Adjacent to the search bar, I would like to have a **Filter Tool** that allows me to filter the listed cards based on certain metrics such as Recently Edited companies, Ascending Names, Descending Names all available as a drop-down menu.
 - iii. In the top right section of the page, I would like to have a **"New Company"** button that upon clicking opens the new company creation form.
 - iv. Below the search bar, I would like to have a total records counter that shows the **total records**(companies) that are listed below and total records that are available in the total database. If total records are 100 and 20 are listed on the UI, the format shall be as 20/100 Records found.
